Summary of Results

A user can write a review for a specific show and have it appear next to the other user reviews. A user can purchase multiple tickets for a show and have them returned with confirmation. The user of the app can navigate through the app easily and there's a lot of directions to show where to go. The user can buy a ticket with multiple forms of payment.

List of Changes

1. Work out kinks with rewards program
2. Make download ticket design more informative
3. Design app with the summer theme
